

## VIII SCIENCE TEST ON CROP PRODUCTION & SYNTHETIC FIBERS & PLASTICS

TIME: 1 HOUR

M.M: 25

1. Fill in the Blanks:

1×7 = 7

- Rabi crops are sown in \_\_\_\_\_.
- Wheat and gram belongs to \_\_\_\_\_.
- Two broad cropping patterns are \_\_\_\_\_ & \_\_\_\_\_.
- Plough is a device used for \_\_\_\_\_ & \_\_\_\_\_.
- Say 'no' to \_\_\_\_\_ and say 'yes' to \_\_\_\_\_ bag.
- Nylon was prepared from \_\_\_\_\_, air and \_\_\_\_\_.
- Raw material used for Rayon is \_\_\_\_\_.

2. Write the two uses of hoe.

2

3. If wheat is grown in Kharif season. What will happen?

2

4. Why teflon is used in cookwares?

2

5. Why Plastic containers are favoured for storing food?

2

6. What is rayon? Write its two uses.

2

7. a. Why the soil is turned and loosened?

4

b. Write one property and one use of melamine.

8. a. What are biodegradable and non biodegradable materials? Give examples also.

4

b. Explain why the following are made of thermosetting plastics.

- Saucepan handles
- Electric Plugs/switches
